

# TOUGHER. STRONGER. AND NOW AVAILABLE IN 2 SIZES.

**CURVED HD HANDLE  
FOR PRODUCT LINES**

**BTI's HD™  
Valve Handle.  
It's the Definition of tough.**

**STRAIGHT HD HANDLE  
FOR SMALLER AIRLINES**

Introducing BTI's newest versions of Heavy Duty Handles now featuring composite triggers, to reduce corrosion build-up for smooth operation. In addition, BTI has added a new Heavy Duty Straight HD Handle version for 2", 3" and 4" airline valves for pneumatic tank trailers with tight locations. Both the Curved and Straight HD Handles are available with a cathodic epoxy coating, which creates a virtually corrosive-free environment.

Driver friendly, competitively priced and longer lasting—BTI once again raises the bar on an industry standard and finds a valuable solution to an industry nuisance with the HD Handle.

- A** Lengthened handle and ergonomically curved design provides comfortable grip and additional clearance for increased leverage
- B** Rounded, stainless steel lever tip decreases wear to the lever
- C** New corrosion-resistant composite trigger for smooth operation

**Proven to withstand abnormal wear and competitively priced, it's the perfect companion to B.T.I.'s Bottom Drop Hopper Tee.**

AVAILABLE WITH CATHODIC EPOXY COATING  
FOR INCREASED DURABILITY
